Dantzick, Aug. 20.

YOU have already had an account of what has happened in *Moscow* since the death of the Czar *Alexis*, and that Czar *John*, whose Right it is, is alone on the Throne, having caused his Brother *Peter*, who upon the death of *Alexis*, was by some of the great Men Proclaimed Czar, to be killed; the last Letters we had from those parts, said, That things were now very quiet there, and that they that had the Ministry of affairs were about sending Ambassadors to the neighbouring Princes, to confirm the Alliances and Friendship that were between them and the former Czars. From *Poland* we receive nothing of moment, that Kingdom being in a quiet and peaceable condition, without any apprehensions of a forcign War; only it is observed that there is not now so close a Correspondence between the Polish Court and that of *France*, as there was h retofore.

Naples, Aug. 21. On Wednesday last arrived here an Express with Letters from the Governor of *Milan* to our Viceroy, and that Evening his Excellency caused the collateral Council to meet, and the next Morning the Express was dispatcht back with an Answer to the Letters he brought; some persons have been very inquisitive to know the subject of them, and have been informed, that the Governor of *Milan*, mistrusting the designs of the French, calls upon our Viceroy to send him what assistance he can of Men and Moneys from hence, according to the Orders he has received from *Spain* for that purpose. From *Sicily* we have an account, That in many places of that Kingdom they have suffered very much by the Rains which have fallen in that abundance as to destroy several Towns by the Floods they occasioned.

Venice, Aug. 22. The last Week was brought hither the News of the Death of the Chevalier *Morosini*, late Ambassador from this State at *Constantinople*, and one of the Procurators of St. *Mark*, into who e place the Senate h s chosen Signior *Bassadonna*, Brother to the Cardinal of that name. From *Rome* our Letters tell us that several of the Cardinals did labour to compose the present differences between the Pope and the most Christian King, and that they had had several long Audiences of the Pope on that Subject, but that it did not as yet appear that they had prevail d upon him to depart from his former resolutions in the matter. On Saturday last arrived here an Express, who brought the French Ambassador here the news of the Dauphinesses being brough t to Bed, which his Excellency has given notice of to the Doge and the Senate.

Copenhagen, Aug. 22. Here are arrived two Deputies from the City of *Lubeck*, to endeavour to adjust the matter of our Kings pretension for Quarters assigned him upon that City during the last War, and we are told, that to put an end to it, they offer 36000 Crowns; they have had several Conferences with the Ministers here, but with what success is not yet known. From *Sweden* they write, That the Imperial Envoy, the Count of *Asthern*, had had several private Conferences with some of the principal Ministers of that Court, and that it was not doubted but he would succeed in his Negotiation.

Vienna, Aug. 23. Yesterday their Imperial Majesties parted from hence for *Newstadt*, to pass some days there: and to morrow General *Caprara* and the Count of *Staremberg* go hence for *Hungary*, whither they will carry with them very considerable Sums of money, for the paying the Imperial Troops which are drawing together on the River *Waag*. The last Letters from *Hungary* gave an account, That the City of *Caschaw* made a very good defence; That the Count *de Strasoldo* was marched to *Rosenberg*, where he expected some Regiments of Foot to joyn him, in order to the attempting the relief of *Caschaw*; but here it is said that Orders have been sent him, not to enter upon that or any other Enterprize, without sufficient Forces. We had some time since advice, that the Vizier of *Buda* had sent a Detachement of 6000 Men to joyn the R bels, and now we hear that he himself was arrived in the Camp before *Caschaw*. We have likewise advice that the Prince of *Transilvania* is on his march, and that part of his Troops arrived the 11th Instant at *Debrezen* in the *Upper-Hungary*; and upon these advices all the Imperial Troops in *Bohemia, Moravia, Silesia*, and the rest of the Emperors Hereditary Countreys, are ordered to March with all diligence to the general Rendevous on the *Waag*.

Vienna, Aug. 27. Yesterday we received Letters from *Hungary*, which gave an account, That the City of *Caschaw*, after having made the best defence they could, had been at last forced to capitulate, and that the place was surrendred to Count *Teckeley* the 14th Instant; That the Garison, which consisted of about 400 men, marched out only with Staves in their hands, and that most of them took Service with the Rebels; That the Governor of *Caschaw* was a Prisoner, and that the Inhabitants, to redeem themselves from being Plundered, had paid 50000 Crowns. The Letters add, That the same day *Esperies* was likewise Surrendred to Count *Teckeley*, the Garison that was there marching out with their Arms; That the 18th Instant the Rebels sat down before *Lentschaw*, and had sent to Summon *Zipserstot*, which places it was feared would not be able to make any great defence. Yesterday General *Caprara*, and the Count of *Starenberg* parted from hence for *Hungary*, where the Emperors Troops are drawing into a Body with all imaginable diligence. Their Imperial Majesties returned yesterday from *Neustadt*.

Francfort, Aug. 30. The difficulties that have been raised by the Deputy of *Mentz* have put a stop to the meeting of the Deputies here, but the
